Overview and Notes

Overview

An installation application, c360.RelationshipChart.Setup.exe has been created to simplify the setup of c360 Relationship Chart. This document walks through the setup wizard screens. The installation application must be run on the CRM Server machine by a user with Domain Administrator privileges.

Microsoft CRM Compatibility

c360 Relationship Chart version 1.2.1 is compatible with Microsoft CRM version 1.2.

Installation Instructions

Installation Instructions

If installing on a system other than the sample installation, Adventure Works Cycle, you will need to have your c360 Relationship Chart license file on hand to complete the installation.

Follow these steps to install Relationship Chart:

1. Extract the c360.RelationshipChart(MSCRMv1.2).zip file into a folder on the Microsoft CRM server computer.
2. Double click the 'c360.RelationshipChart.Setup.exe' file.
3. Click *Next* to begin the installation process.

4. Accept the License Agreement and click *Next*.

8. Select the location of the data and log files for the c360_Solutions database and click *Next*.

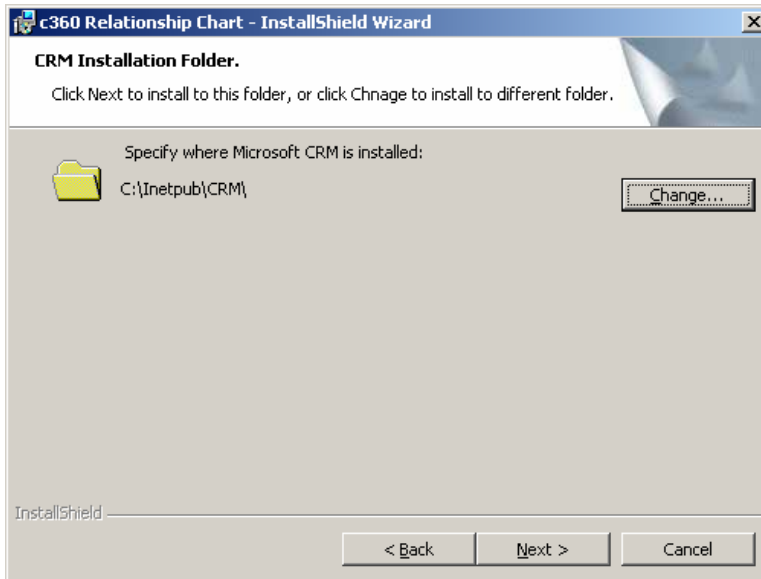

9. Select the location for the program files and click *Next*.

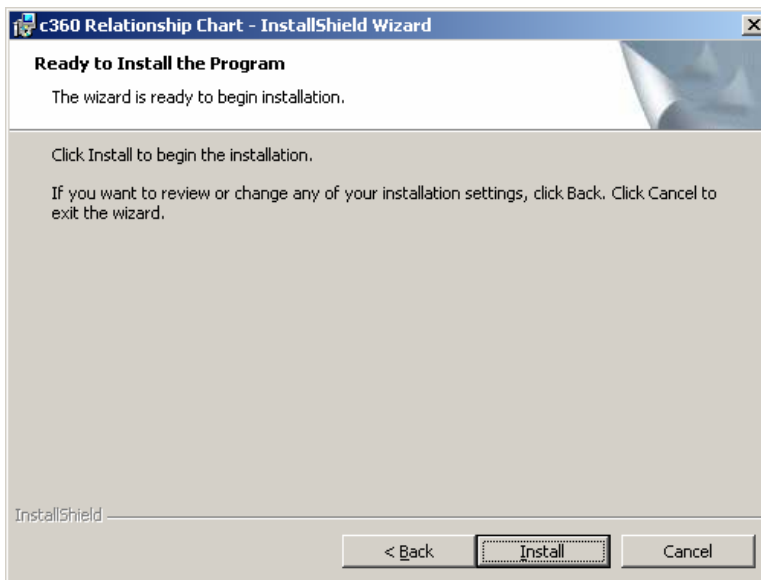

10. Verify the location of Microsoft CRM web application files. Select *Change...* if Microsoft CRM is installed in a different location. This folder should contain the 'web.config' file for Microsoft CRM web application.

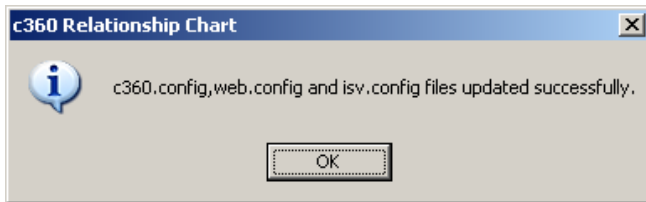

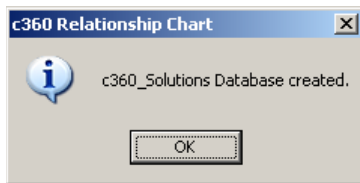

11. Click *Install* to install c360 Relationship Chart.

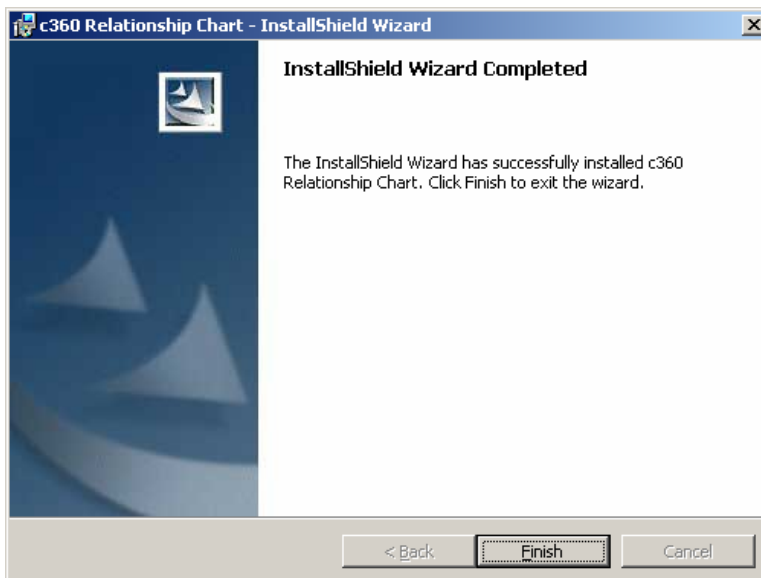

12. Click *OK* to the following two dialog boxes.

13. Click *Finish* to complete the Setup Wizard.

14. If installing on a system other than the sample installation, Adventure Works Cycle, proceed to step 15.

15. Locate the c360 Relationship Chart license file and copy this file into 'Custom\c360\Licenses' folder. Select *Yes* to overwrite the existing license. The 'Custom' folder can be found under the root folder of the Microsoft CRM web application.

Uninstall Instructions ---

Follow these steps to uninstall Relationship Chart:

1. Open 'Add or Remove Programs' from the Control Panel.
2. Select c360 Relationship Chart from list of the currently installed programs.
3. Click *Remove*.
4. Select *Yes* to begin the Uninstall process.
5. To prevent data loss, the c360_Solutions database is not removed from Microsoft SQL Server during the uninstall process.
