

SKB 1011: Details about New Products in SKB588

1. Non Microsoft
 - a) Apache HTTP Server
 - 1) Apache 1.3 (Scan Only)
 - 2) Apache 2.0 (Scan Only)
 - ◇ *Installation of Apache updates will overwrite existing customer Apache configurations, therefore HFNetChkPro will not deploy Apache updates, but will rather report on the existence of and versions found of Apache*
 - b) WinZip 8.1
 - 1) WinZip 8.1 Gold
 - 2) WinZip 8.1 SP1
 - 3) WinZip 9.0
 - 4) WinZip 9.0 Gold
 - 5) WinZip 9.0 SP1
2. Microsoft
 - a) DirectX
 - 1) DirectX 4.70 for Win2K
 - ◇ *Though we've always scanned for this product, the scan engine has been modified to only scan for this product when on Win2K SP2 and later (as the patch will only install on SP2 and later machines)*
 - b) DirectX 4.81 for Windows Small Business Server 2003 Gold
 - ◇ *We've always scanned for DX 4.81 on WS03 – the engine has been updated to make this specific to SBS03 servers to better prepare for SBS03 service pack releases (vs. WS03 SP releases that might come at different times)*
3. Microsoft Virtual Machine (VM)
 - ◇ *Microsoft VM was previously handled as an OS patch – now it's handled as its own product type*
4. MSXML
 - a) MSXML 2.6
 - b) MSXML 2.6 Gold
 - c) MSXML 2.6 SP1
 - d) MSXML 2.6 SP2
 - e) MSXML 2.6 SP3
 - ◇ *Service Packs for MSXML2.6 SP2 and earlier are no longer available from Microsoft. SP 3 is available and can be deployed*

- f) MSXML 3.0
- g) MSXML 3.0 Gold
- h) MSXML 3.0 SP1
- i) MSXML 3.0 SP2
- j) MSXML 3.0 SP3
- k) MSXML 3.0 SP4
- l) MSXML 3.0 SP5
- ◇ *Service Packs for MSXML3 SP3 and earlier are no longer available from Microsoft. SPs 4 and 5 are available and can be deployed*
- m) MSXML 4.0
- n) MSXML 4.0 Gold
- o) MSXML 4.0 SP1
- p) MSXML 4.0 SP2
- ◇ *Service Pack for MSXML4 SP1 is no longer available from Microsoft. SP2 is available and can be deployed*

5. .NET Framework

- a) NET Framework 1.1
- b) NET Framework 1.1 for Windows Small Business Server 2003 Gold
- c) NET Framework 1.1 for Windows Small Business Server 2003 SP1
- d) NET Framework 1.1 for Windows Server 2003 Gold
- e) NET Framework 1.1 for Windows Server 2003 SP1
- ◇ *NET Framework 1.1 Gold and SP1 were broken out into separate products (from .NET 1.1) as the patches that are installed for WS03 products are different than those for WXP and earlier. Also, since .NET SPs may be included in future WS03 SPs, we broke out SBS03 from WS03 as the SPs for these products may ship at different times*
- f) NET Framework 1.1 SP1
- ◇ *The scan engine has had support for .NET 1.1 SP1, but MS changed the detection logic during release. This new scan engine corrects the assessment logic for .NET 1.1 SP1*

6. BizTalk Server 2000

- a) BizTalk Server 2000 Gold
- b) BizTalk Server 2000 SP1
- c) BizTalk Server 2000 SP2
- ◇ *The BTS 2000 SPs cannot be installed in a silent, unattended mode, therefore they are detected, but not deployable at this time with Shavlik HFNetChkPro.*

7. BizTalk Server 2002

- a) BizTalk Server 2002 Gold
- b) BizTalk Server 2002 SP1
- ◇ *BTS 2002 SP1 cannot be installed in a silent, unattended mode, therefore it is detected, but not deployable at this time with Shavlik HFNetChkPro.*

8. BizTalk Server 2004
 - a) BizTalk Server 2004 Gold
9. Content Management Server 2001
 - a) Content Management Server 2001 Gold
 - b) Content Management Server 2001 SP1
 - c) Content Management Server 2001 Site Builder Gold
 - d) Content Management Server 2001 Site Builder SP1
 - e) Content Management Server 2001 Site Stager Gold
 - f) Content Management Server 2001 Site Stager SP1
 - ◇ *CMS 2001 SPs cannot be installed in a silent, unattended mode, therefore they are detected, but not deployable at this time with Shavlik HFNetChkPro. Also, the patches for CMS2001 are detectable, but not deployable at this time (they require manual intervention steps during the install)*
10. Content Management Server 2002
 - a) Content Management Server 2002 Gold
 - b) Content Management Server 2002 SP1
 - ◇ *CMS 2002 SP1 cannot be installed in a silent, unattended mode, therefore it is detected, but not deployable at this time with Shavlik HFNetChkPro.*
11. Host Integration Server 2000
 - a) Host Integration Server 2000 Gold
 - b) Host Integration Server 2000 SP1
 - ◇ *HIS 2000 SP1 cannot be installed in a silent, unattended mode, therefore it is detected, but not deployable at this time with Shavlik HFNetChkPro.*
12. Host Integration Server 2004 Gold
13. IIS6 for Windows Small Business Server 2003
 - ◇ *The IIS6 for WS03 product detection was broken out to report on IIS6 for SBS03 separately (as the SPs for WS03 and SBS03 may be released at separate times)*
14. Windows Small Business Server 2003
 - ◇ *We changed the name of SBS03 server and created separate detection rules, to accommodate separate releases of WS03 vs. SBS03 Service Packs*

15. SNA Server 4.0 Gold

16. Publisher 2000

- a) Publisher 2000 Gold
- b) Publisher 2000 SR-1
- c) Publisher 2000 SP2
- d) Publisher 2000 SP3
- ◇ *Service Packs for Publisher are handled in the same manner as Service Packs for other Microsoft Office Products such as Word and Excel. There are no SP download icons for these individual products, instead, customers can deploy the Office SP and update their Publisher SP version in this manner.*

17. Publisher 2002

- a) Publisher 2002 Gold
- b) Publisher 2002 SP1
- c) Publisher 2002 SP2
- d) Publisher 2002 SP3
- ◇ *Service Packs for Publisher are handled in the same manner as Service Packs for other Microsoft Office Products such as Word and Excel. There are no SP download icons for these individual products, instead, customers can deploy the Office SP and update their Publisher SP version in this manner.*

18. Publisher 2003

- a) Publisher 2003 Gold
- b) Publisher 2003 SP1
- ◇ *Service Packs for Publisher are handled in the same manner as Service Packs for other Microsoft Office Products such as Word and Excel. There are no SP download icons for these individual products, instead, customers can deploy the Office SP and update their Publisher SP version in this manner.*

19. Visio 2002 Standard

- a) Visio 2002 Standard Gold
- b) Visio 2002 Standard SP1
- c) Visio 2002 Standard SP2

20. Visio 2002 Professional

- a) Visio 2002 Professional Gold
- b) Visio 2002 Professional SP1
- c) Visio 2002 Professional SP2

21. Visio 2002 for Enterprise Architects

- a) Visio 2002 for Enterprise Architects Gold
- b) Visio 2002 for Enterprise Architects SP1
- c) Visio 2002 for Enterprise Architects SP2

- 22. Visio 2003 Standard
 - a) Visio 2003 Standard Gold
 - b) Visio 2003 Standard SP1
- 23. Visio 2003 Professional
 - a) Visio 2003 Professional Gold
 - b) Visio 2003 Professional SP1
- 24. 25. Project 2002 Standard
 - a) Project 2002 Standard Gold
 - b) Project 2002 Standard SP1
 - c) Project 2002 Standard SP2
- 25. Project 2002 Professional
 - a) Project 2002 Professional Gold
 - b) Project 2002 Professional SP1
 - c) Project 2002 Professional SP2
- 26. Project 2003 Standard
 - a) Project 2003 Standard Gold
 - b) Project 2003 Standard SP1
- 27. Project 2003 Professional
 - a) Project 2003 Professional Gold
 - b) Project 2003 Professional SP1
- 28. Windows Media Player 10 Gold
- 29. MDAC 2.8 for Windows XP
 - a) MDAC 2.8 for Windows XP Gold
 - b) MDAC 2.8 for Windows XP SP1
 - ◇ *MDAC 2.8 has now been split into MDAC 2.8 (for Win2K and NT), MDAC 2.8 for XP, MDAC 2.8 for WS03, and MDAC 2.8 for SBS03. Specific to XP, XP SP2 includes MDAC 2.8 SP1, which is not available as a general download. The prior scan engine showed MDAC 2.8 SP1 as being available. This new scan engine will not show MDAC 2.8 SP1 as available on machines that are unable to obtain it (ie. Any machine other than XP SP2)*
- 30. MDAC 2.8 for Windows Server 2003 Gold
 - ◇ *MDAC 2.8 has now been split into MDAC 2.8 (for Win2K and NT), MDAC 2.8 for XP, MDAC 2.8 for WS03, and MDAC 2.8 for SBS03.*
- 31. MDAC 2.8 for Windows Small Business Server 2003 Gold
 - ◇ *MDAC 2.8 has now been split into MDAC 2.8 (for Win2K and NT), MDAC 2.8 for XP, MDAC 2.8 for WS03, and MDAC 2.8 for SBS03.*

32. Internet Explorer 6.0 for Windows NT SP1

- ◇ *Microsoft is not releasing IE6 SP1 patches with different patches for NT4 vs. Win2K, so it was necessary to create a new detectable product for IE6 SP1 on NT4*

33. Internet Explorer 6.0 for Windows Small Business Server 2003 Gold

- ◇ *The IE6 for WS03 product detection was broken out to report on IIS6 for SBS03 separately (as the SPs for WS03 and SBS03 may be released at separate times)*

34. Windows XP Tablet PC Edition

- ◇ *Previously, this was reported as Windows XP Tablet PC Edition, but was grouped under the Windows XP Pro category. Now it has its own category and is treated like its own product*

35. Small Business Server 2000

- ◇ *Previously, this was reported SBS2000, but was grouped under the Windows 2000 Server category. Now it has its own category and is treated like its own product*
